January 27, 2012

Dear Red Hawk Ridge Community,

Over the course of the last two school years and continuing forward, the enrollment at Red Hawk Ridge has grown steadily. As a result, district administration, in conjunction with the Long Range Facility Planning committee has closely monitored current and projected student enrollment. At this time, Red Hawk Ridge has been placed on a “calendar watch” for next school year (2012-13). A calendar watch will involve evaluating pupil count based on October 1, 2012 and projections for the 2013-14 school year. District administration along with input from the Planning Office and Long-Range Facility Planning committee may decide to move Red Hawk Ridge to a four-track calendar for the 2013-2014 school year.

The Board of Education will formally vote on a resolution to change the calendar for Red Hawk Ridge in December of 2012 if enrollment and projections warrant a change. If approved, this means that all students will begin the next school year (2013-14) in early July, and will begin to follow a four track calendar. In order to ensure that everyone receives clear and accurate information about the calendar change, we will be providing you with updates and specifics about this change via the school newsletter.

If you have any questions, please do not hesitate to contact your school principal, Mr. Michael Wurdeman.

Sincerely,
